Piedmont Office Management would like to remind tenants of our Electric Vehicle Charging stations from SemaConnect! The stations are capable of charging all new generation electric and plug-in hybrid vehicles and are available for access 24/7. They are completely safe, easy and reliable, with usage being as simple as plugging in your cell phone.

If you have an electric vehicle, or know someone who has one, be sure to spread the world about our charging stations, or stop by the stations and try them out!

Pricing: $0.50 per hour – first (4) hours
            $5.00 per hour – fifth hour and beyond

Thank you and Happy Charging!

How to Charge an EV:

1. Choose one of the five ways to charge

2. Hold your SemaCharge Pass or Smartphone up to the charging station's card reader symbol to authenticate

3. Unplug the connector from the charging station and insert into your EV. Once you hear the "Click", you'll know it's secure.

4. Once the station turns from available (blue lights) to charging (green lights) your vehicle has successfully started charging!

5 Ways to Charge:

1. SemaCharge Pass: SemaConnect will send you a pass to easily start and stop charging sessions

2. Call 1-800-663-5633: SemaConnect can remote start a charge for you

3. Use the app: Free mobile app for iPhone and Android

4. Use PlugShare: Find stations and easily start a charge using the largest EV charging application that partners with SemaConnect

5. Visit the mobile site: **www.network.semaconnect.com**
